

Mirko Masek

Counsel

Corporate and M&A

Primary practice

Corporate and M&A

About Mirko Masek

Mirko is **Counsel** in our **Global Transactions** group.

He is focussing on **mergers and acquisitions**, reorganisations, corporate law and general contract and commercial law.

He is also a member of our **energy, resources and infrastructure** sector group and has experience in the field of **renewable energy**, in particular **wind power**.

He assists clients in connection with engineering, procurement and construction contracts, and has worked on turbine supply and similar project-related agreements. Mirko also supports clients in project-financing settings.

He advises clients from a wide range of industries and countries. His wide range of experience also includes M&A-related work for strategic investors and non-performing loan transactions in different asset classes.

Recent work

- Advising RWE on the refocussing of its activities: as a result of this deal, RWE is set to become the third largest European renewable energy business, and the second largest in wind power.
- Advising a power company on a joint-venture regarding development and operation of a hydrogen plant.
- Advising ørsted on its acquisition of various offshore wind projects in Germany since 2014.
- Assisting Hamburg Commercial Bank on large projects, including its EU subsidy proceedings, and sale of a €5bn non-performing shipping portfolio to a state-owned bad bank as well as ongoing sale of another several billion euro non-performing loan portfolio to the market (eg aviation or commercial real estate financings) as well as its privatisation.
- Advising Vestas, the wind turbine manufacturer, on the acquisition of Availon group, an independent service provider for onshore wind turbines from a private equity majority shareholder.
- Advising Bard Group, the offshore wind companies, on the development and sales process of the offshore wind farm project 'Veja Mate' and three early-stage offshore wind farm projects.

- Assisting AstraZeneca and its global biologics research and development arm MedImmune, on the acquisition of Definiens, a Munich-based company that has pioneered a world-leading imaging and data analysis technology.
