

# Freshfields SECR carbon footprint report

Streamlined Energy and Carbon Reporting  
(SECR) verification statement  
May 2024 – April 2025

August 2025

## Statement of verification

Freshfields Bruckhaus Deringer LLP  
100 Bishopsgate  
London  
EC2P 2SR

15<sup>th</sup> August 2024

### Scope

Freshfields Bruckhaus Deringer LLP (henceforth referred to as Freshfields) engaged Carbon Footprint Ltd to review its 2024/25 Greenhouse Gas (GHG) inventory for its **UK & Bratislava operations for compliance with Streamlined Energy & Carbon Reporting (SECR)** for the period **1<sup>st</sup> May 2024 to 30<sup>th</sup> April 2025**. Freshfields is responsible for the information within the GHG inventory. The responsibility of Carbon Footprint Ltd is to provide a conclusion as to whether the statements made are in accordance with the GHG Protocol.

### Methodology

The verification was led by Jenny Webb & Alex Pell, Senior Environmental Consultants, Carbon Footprint Ltd. Carbon Footprint Ltd completed the review in accordance with the 'ISO 14064 Part 3 (2019): *Greenhouse Gases: Specification with guidance for the verification and validation of greenhouse gas statements*'. The work was undertaken to provide a limited level of assurance with respect to the GHG statements made. Carbon Footprint Ltd believes that the review of the assessment and associated evidence, provides a reasonable and fair basis for our conclusion.

The following data was within the scope of the verification<sup>1</sup> (below shows the post-audit results):

- **Scope 1:** natural gas and refrigerant loss – **6.04 tCO<sub>2</sub>e**
- **Scope 2:** purchased electricity – **1,451.29** (location-based) and **0 tCO<sub>2</sub>e** (market-based)
- **Scope 3:** SECR mandatory elements only (hire car & employee expensed mileage) = **6.23 tCO<sub>2</sub>e**

<b>Location-based total</b>	<b>1,463.56 tCO<sub>2</sub>e</b>
<b>Market-based total</b>	<b>12.28 tCO<sub>2</sub>e</b>
<b>Location-based emissions per employee:</b>	<b>0.77 tCO<sub>2</sub>e per FTE</b>
<b>Market-based emissions per employee:</b>	<b>0.01 tCO<sub>2</sub>e per FTE</b>
<b>Total energy consumed</b>	<b>7,691,108 kWh</b>

### Assurance opinion

Based on the results of our verification process, Carbon Footprint Ltd provides limited assurance of the GHG emissions statement, **and found no evidence that the GHG emissions statement:**

- is not materially correct and is not a fair representation of the GHG emissions data and information;
- has not been prepared in accordance with the GHG Protocol.

It is our opinion that Freshfields has established appropriate systems for the collection, aggregation and analysis of quantitative data for determination of GHG emissions for the stated period and boundaries.
